

RUAG Defence France at SHIELDAFRICA 2019.

Abidjan, January 2019 – RUAG Simulation & Training is pleased to propose to the African armed and security forces a complete range of simulation and training solutions.

Our company specializes in simulation systems and equipment for combat training, both mounted and dismounted as well as artillery and infantry live fire targetry. In France, our products are used by all armed forces and form the basis of French military training.

RUAG Defence France also provides state of the art military training services for the Swiss and German militaries. RUAG Defence's Swiss branch runs all Swiss training facilities while in Germany RUAG Defence is responsible for complex building instrumentation and specialized counter IED training. RUAG Defence France is proud to provide the same high quality service in a larger international scale.

As it is our first participation at SHIELDAFRICA, we will present our complete range of solutions in live simulation including the last TESS (Tactical Engagement Simulation System) for the dismounted soldier, in virtual simulation through our flagship products SITTAL (Small Arms Technical Training Simulator) and SOTA (Artillery and Mortars Fires Observation Simulator), as well as our complete range of target-holders for live-fire training.

We look forward to welcoming you to our booth 255 in Hall INT.
